Aspiring Full Stack Web Developer with a solid background in both front-end and back-end technologies. I am currently studying for a Diploma in Computer Science at Faridpur Polytechnic Institute. I know C, HTML, CSS, and JavaScript well, and I have hands-on experience with the React framework. I am skilled in database management systems like MongoDB and have built servers, APIs, and databases that improve functionality and performance. I am a dedicated and detail-oriented team member. I am committed to ongoing learning and providing innovative, high-quality web solutions through practical problem-solving and creativity.

Experience

Dec 2021 - Current Programming

- Working as a programmer
- C/C++, JavaScript

Jan 2022 - Current Web Development

- Working as a web developer for 2 years
- MERN Stack

Oct 2024 - May 2025 Ambassador

ICT Olympiad Bangladesh Season 2, Faridpur, Bangladesh

- Facilitated communication between participants and organizers to enhance event experience.
- Coordinated logistics and resources for successful execution of ICT Olympiad events.
- Mentored junior ambassadors, promoting knowledge sharing and skill development.
